

What courses can I take if I am engineering pending?

So long as you meet requisites, engineering pending students can take:

- All appropriate [General Education Program \(GEP\)](#) courses
- All required math courses (MAC 2311C, MAC 2312, MAC 2313, MAP 2302)
- All required physics courses (PHY 2048C, PHY 2049C)
- Appropriate chemistry course (CHS 1440C, CHM 2045C)
- Any Computer Science or Information Technology course (if usable as a technical elective for your major)
- EGS 1006C*
- EGN 1007C*
- EEE 3342C
- EGN 3211**
- EGN 3310
- EGN 3365
- EGN 3420
- EGN 3613
- EIN 3351
- EMA 3706***
- ENV 3001
- STA 3032

* First time in college freshman students only

** Electrical Engineering and Computer Engineering students only

*** Aerospace Engineering students only

What courses can I register for if I am currently enrolled in the final pending course(s)?

Students taking their final pending course(s) at UCF can register for select major-specific courses in future terms. Upon successful completion of the final pending course(s), students will automatically be changed from engineering pending to the major.

So long as you meet prerequisites and the class is applicable to your major, engineering pending students taking their final pending course(s) at UCF can enroll into:

- CAI 4823
- CCE 4003
- CGN 3405
- EEL 3004C
- EEL 3801C
- EGM 3601
- EGN 3321
- EGN 3331C
- EGN 3343
- EGN 3373
- EMA 3012C
- EMA 3124

NOTE: Students taking their final pending course(s) [transiently](#) will need to wait until proof of final passing grade can be provided with an [override](#) to enroll in the above courses. Once transient final grades have been posted to the degree audit, the student must submit a change of major request to move from engineering pending to the major.
